

2003

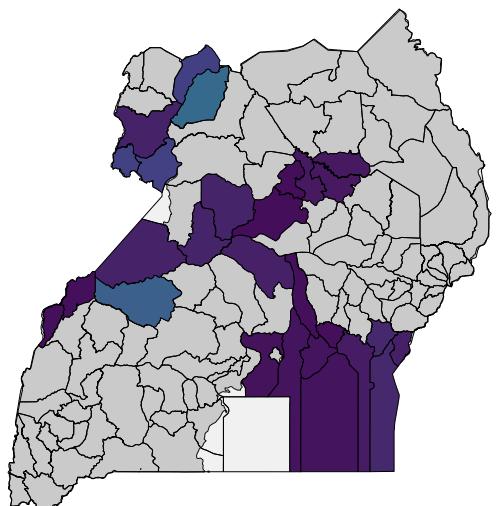

denominator: total targeted

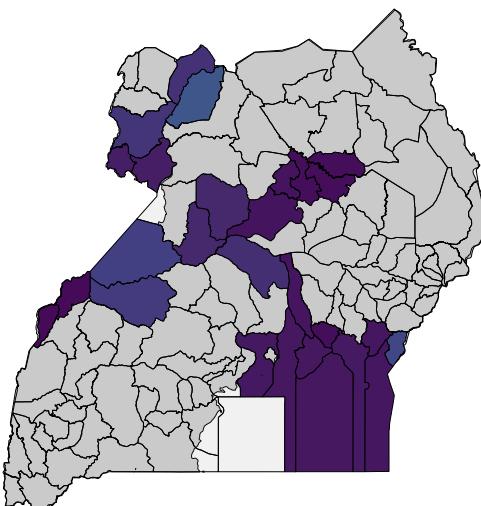

denominator: district population (constant growth)

denominator: district population (SCIF numbers & constant growth)

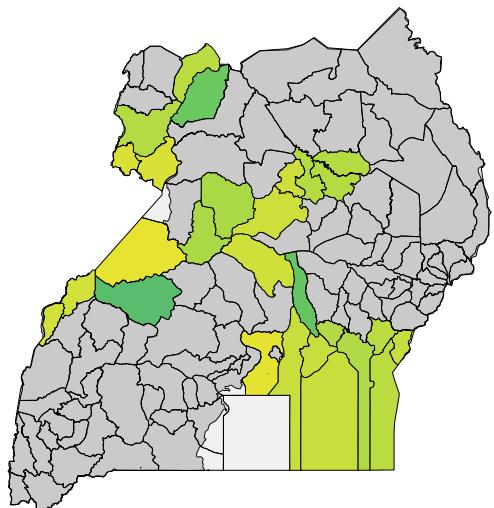

denominator: largest targeted pop (across years)

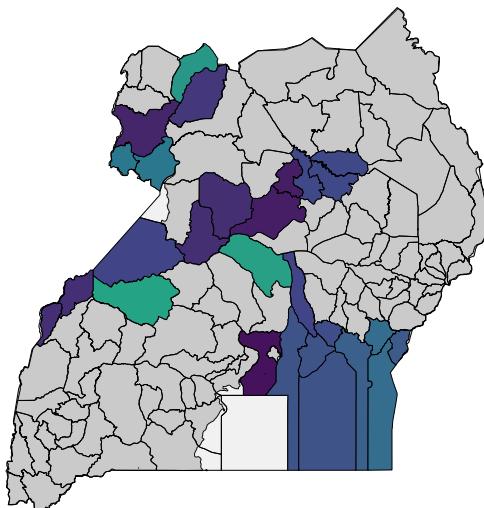

Dark grey values > 100%

2004

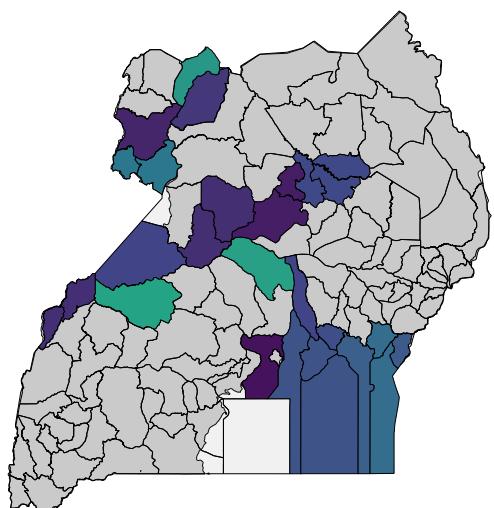

denominator: total targeted

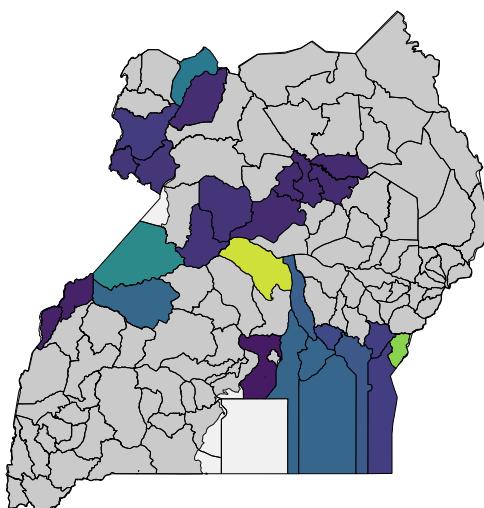

denominator: district population (constant growth)

denominator: district population (SCIF numbers & constant growth)

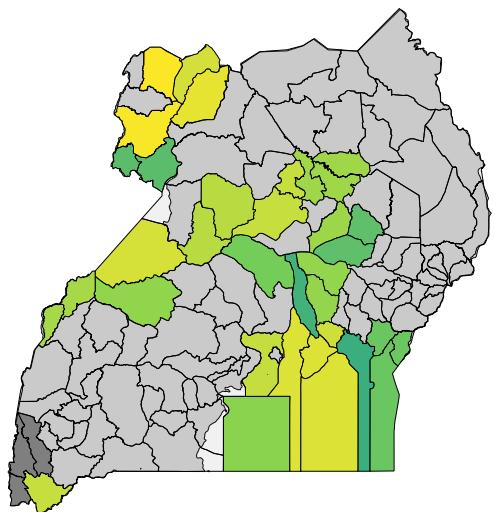

denominator: largest targeted pop (across years)

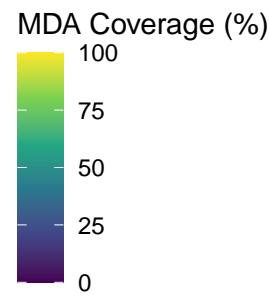

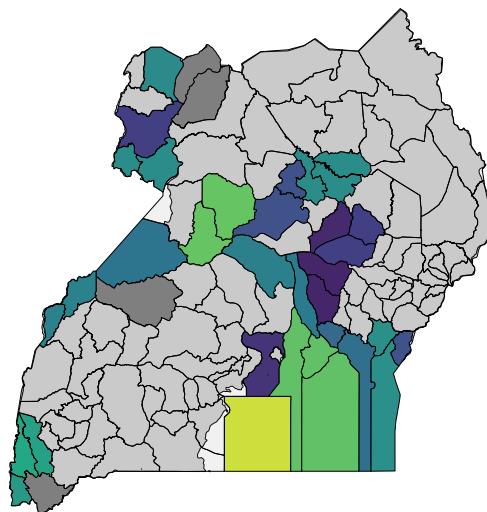

Dark grey values > 100%

2005

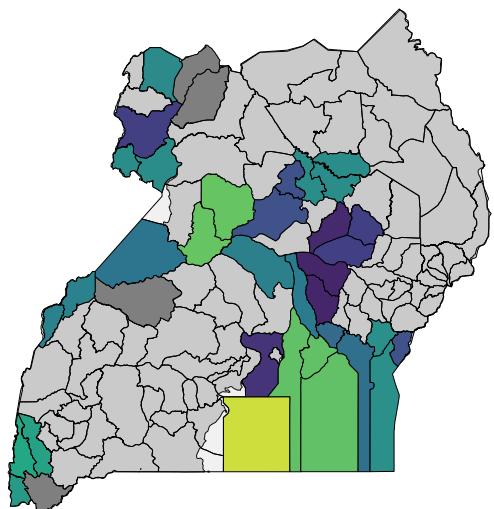

denominator: total targeted

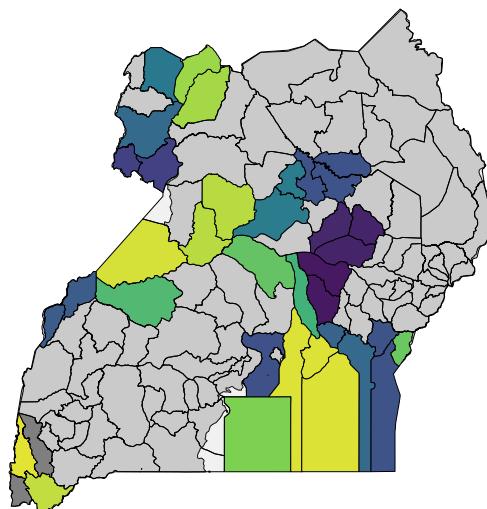

denominator: district population (constant growth)

denominator: district population (SCIF numbers & constant growth)

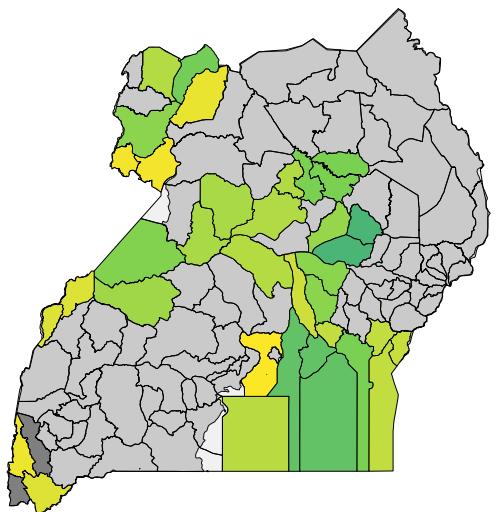

denominator: largest targeted pop (across years)

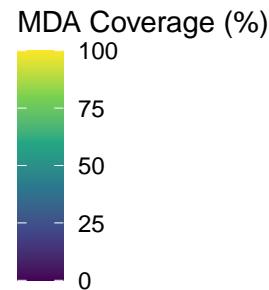

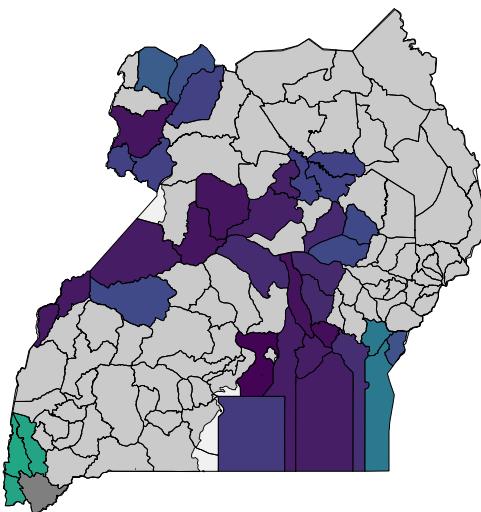

Dark grey values > 100%

2006

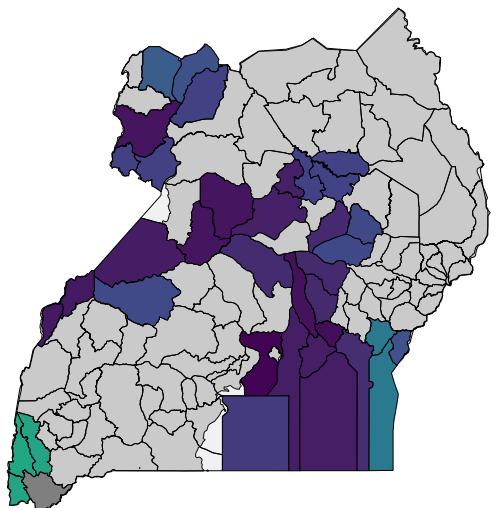

denominator: total targeted

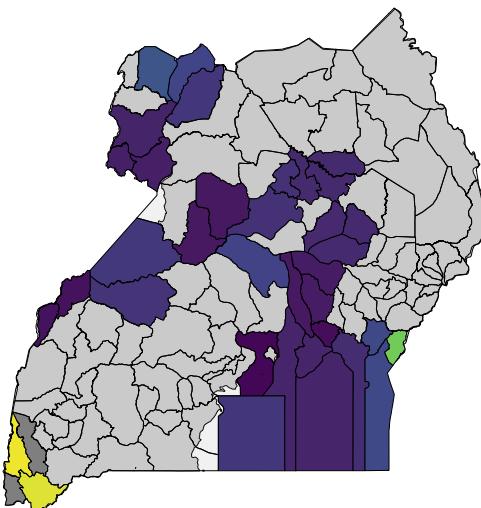

denominator: district population (constant growth)

denominator: district population (SCIF numbers & constant growth)

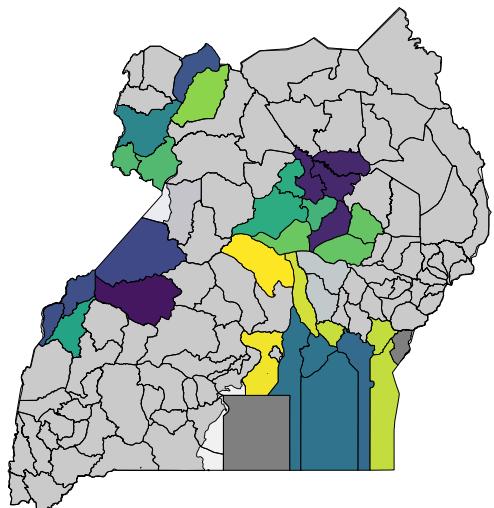

denominator: largest targeted pop (across years)

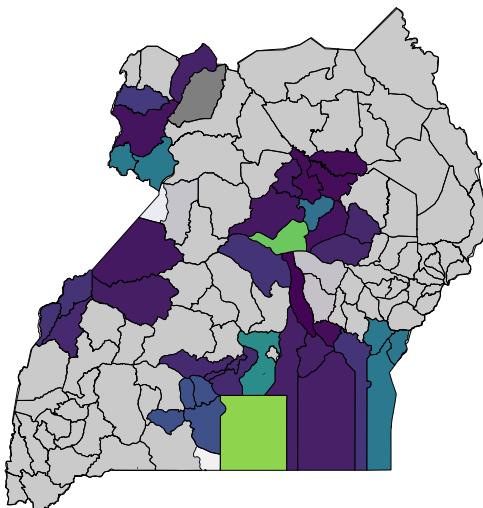

Dark grey values > 100%

2007

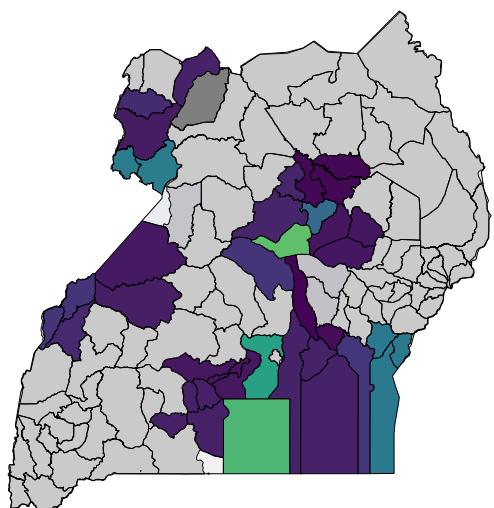

denominator: total targeted

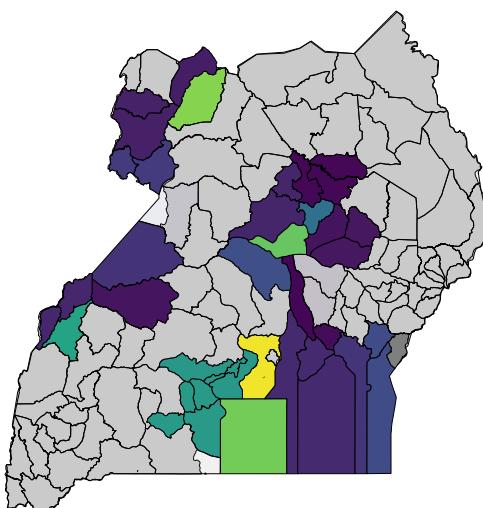

denominator: district population (constant growth)

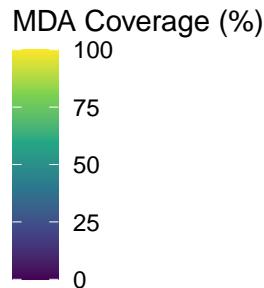

denominator: district population (SCIF numbers & constant growth)

denominator: largest targeted pop (across years)

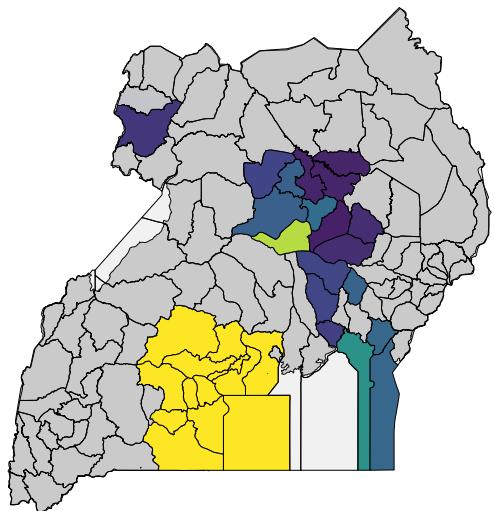

Dark grey values > 100%

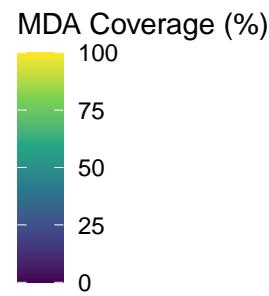

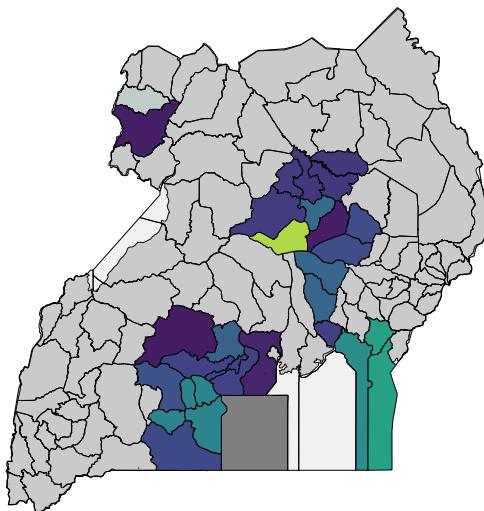

2008

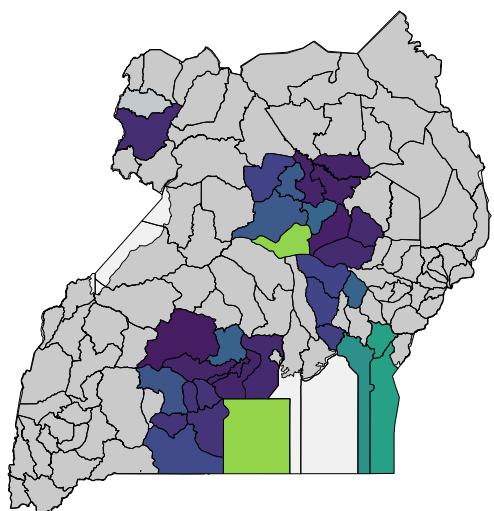

denominator: total targeted

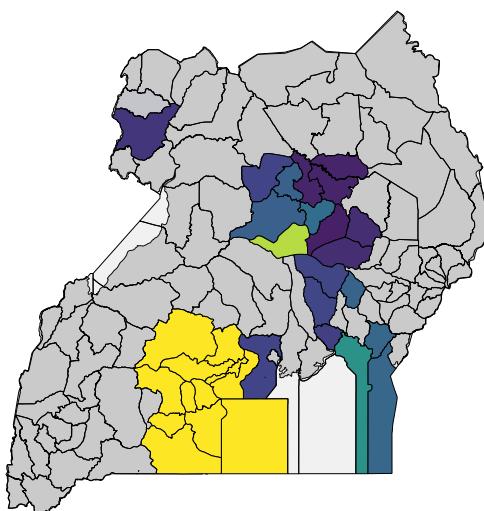

denominator: district population (constant growth)

denominator: district population (SCIF numbers & constant growth)

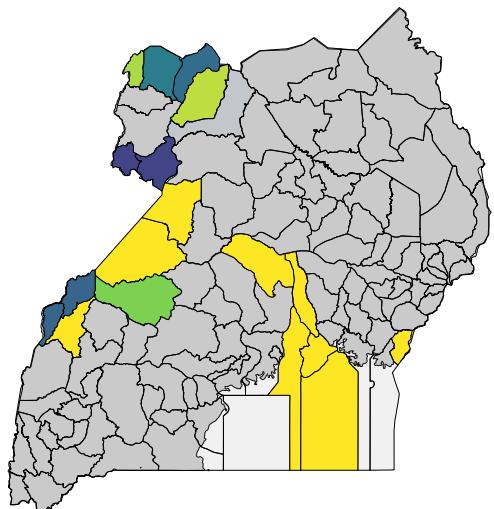

denominator: largest targeted pop (across years)

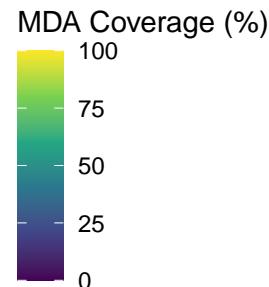

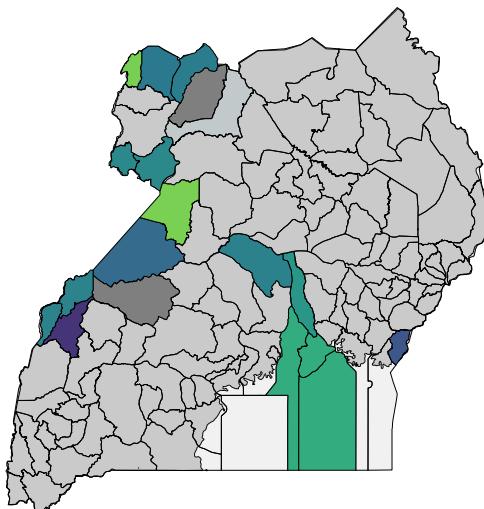

Dark grey values > 100%

2009

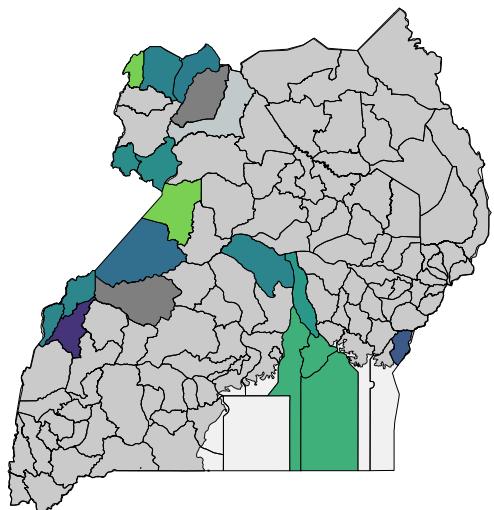

denominator: total targeted

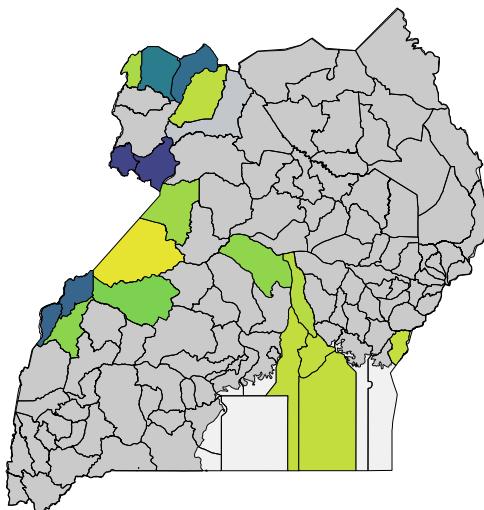

denominator: district population (constant growth)

denominator: district population (SCIF numbers & constant growth)

denominator: largest targeted pop (across years)

Dark grey values > 100%
